This 20,000 square foot retail structure sets on 1.8 acres on Mid-Cities Blvd. immediately in front of the North Richland Hills Municipality Complex. The site is bounded on all four sides with a city road and added feature is that it also has two street light comers on Mid-Cities Blvd.

Each corner of the building is highlighted by matching 30' x 30' towers. Hip roofs and the remaining roofing system use a tin standing seam roofing system anchored with the brick and stone structure below. The fifteen-foot overhang at the front of each tenants space has smaller post system using metal trim of the late 1800's. The design intent is to enhance the elevation with all features that would mirror the elements of the Texas Hill Country.
